

# CASEY COUNTY PUBLIC LIBRARY

## Programming Application Supplement

**Please make sure you have turned in an Employment Application and Resume alongside this supplement.** Submissions that do not include all required parts will not be considered.

Please answer all questions thoughtfully and completely. We are less interested in “perfect” answers than we are in understanding your creativity, community style, organization, and approach to working with children and families. Please feel free to use additional paper in your responses, if needed.

Full Name

### Programming and Outreach:

Describe a children’s program you would be excited to lead at the library. Include the target age group, goals, supplies needed, and how you would keep children engaged. You have a budget limit of \$100.

How would you build relationships with local schools, organizations, or community groups to strengthen library services for children?

Expectations for this position include running the following programs: two story times on Thursday, monthly classroom visits, weekly school/daycare reading visits, passive programs, and monthly programs. Please give us an idea of how you would manage this workload, while protecting yourself from burnout.

Families from many different backgrounds and abilities use the library. What does inclusive children's programming mean to you?

You have 15 minutes to prepare an activity for a group of 9-year-olds. What would you do, and why?

Recommend three books, one each, for the following readers: a preschooler who loves dinosaurs, a 7-year-old who wants something funny, and a 10-year-old reluctant/struggling reader.

## Experience and Culture:

Please describe any experience you have working with children, especially as it relates to learning, development, and designing activities for them.

What traits, experiences, and/or personal interests would you bring that would make you a good fit for our library and this position?

Why are you interested in children's services specifically, rather than another area of library work?
